EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Peret on Feb. 28, 2006.

The application has been amended as follows:

claims 1, 3, 5, 6 and 8-15 have been cancelled;

in claim 16, in line 3, - - directly - - has been inserted after "patch"; and

in claim 25, in lines 4 and 5, "is attached to" is changed to - - directly engages - -.

The following is an examiner's statement of reasons for allowance:

None of the prior art of record discloses or suggests a method of providing therapy to the body in which the reflective layer directly engages or touches the patient's body. In contrast, the prior art discloses placing the heat patch with the reflective layer away from direct engagement with the patient's body and above the internal heat source to permit the heat radiated from the internal heat source to be reflected back toward the heat source.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roy D. Gibson whose telephone number is 571-272-4767. The examiner can normally be reached on Tu-Th, 7:30 am-4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak can be reached on 571-272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
